Four Do-It-Yourself Entry Tags:

Print on white heavy weight or card stock paper. Cut them out. Fold on the dotted lines so that all color shows on the outside. It should fold like a matchbook. Staple through only two layers of paper, on the gray stripes. Add a string, either by adding it into the staple, punching a hole or taping.

Important: print your name and state on the inside and close by tucking the gray dot under the stapled flap, like a matchbook. Cover any signatures on your gourd with masking tape. You are welcome to add contact info inside with your name for people to read after judging.
